

STAFF GEOLOGIST

Job Summary

| | |
|-----------------------------|--|
| Company | Sterling Environmental Engineering, P.C. |
| Location | 24 Wade Road, Latham, New York 12110 |
| Industries | Environmental Consulting and Professional Engineering Services |
| Job Type | Full Time |
| Preferred Experience | 1 to 5 Years |
| Education Level | Bachelor or Master Degree in Geology or Related Discipline |

Sterling Environmental Engineering, P.C. (STERLING), a professional corporation founded in July 1993, provides a wide range of environmental consulting and professional engineering services to the public and private sectors.

The position requires skills and willingness to apply knowledge for a variety of environmental services, including mining and mineralogical assessments, Phase I and Phase II investigations, water supply studies, soil sampling, groundwater monitoring, soil vapor and indoor air sampling, subsurface investigation, remedial design, and construction.

Our projects are led by a Senior Level Project Manager (Engineer/Geologist) and are primarily located in New York State.

Responsibilities include, but are not limited to:

- Perform field inspection and documentation of construction activities;
- Perform field investigations including drilling/well installation oversight, soil description/core logging, environmental monitoring, environmental sampling, and prepare concise field notes;
- Perform stormwater monitoring;
- Manage and analyze environmental data including preparing graphs and maps; and
- Assist in report preparation.

Qualifications & Responsibilities

- Candidates should have a Bachelor's degree in geology (or related discipline) with 1 to 5 years of experience preferred;
- 40-hour HAZWOPER training preferred;
- Strong written and oral communication skills;
- Ability to effectively use common software applications, such as Microsoft® Office and Excel;
- Availability to occasionally perform field activities including occasional evening hours or weekends;
- Must be available for overnight travel;
- Interest in professional development and advancement, moving toward professional licensure;
- Ability to work well with colleagues; work effectively to meet challenging schedules;
- Valid DMV driver's license; and
- Ability to lift 50 pounds.
