Green and Sustainable Remediation: Program Overview and Case Studies

**Speaker: Evelyn Hussey, G.I.T.
Assistant Geologist & Project Manager
Department of Environmental Conservation**

This course is approved for 1 PDH⁺

Abstract: This presentation will describe DEC's policies and goals on green and sustainable remediation. Green and sustainable remediation can be integrated throughout the remedial process to minimize the environmental footprint of cleanup actions. Sustainable practices and

Abstract: (cont'd) technologies will be promoted to provide the audience with simple and effective methods to apply at their own sites. Highlighted concepts will include familiarization of DEC policies: DER-31, CP-49 and CP-75, utilization of local resources, reuse of material, consolidation of site visits, the generation of on-site renewable energy, and reporting/tracking metrics with several site-specific case studies acting as real-world examples. A tutorial of green and sustainable remediation internal guidance will provide the audience with an external tool and additional resources to implement sustainable practices in their own work.

About the Presenter: Evelyn Hussey is an Assistant Geologist in the Division of Environmental Remediation (DER). She is project manager for over 30 NYS Superfund Program (SSF) and Brownfield Cleanup Program (BCP) sites, and actively incorporates green and sustainable remediation into all aspects of her projects, from remedial investigations to site management. Currently, she is assisting the Division of Remediation sustainability liaison and helping to develop internal guidance for the Division to further the integration of green and sustainable remediation techniques and technology into the remedial process. She is also developing a research program within DER with a focus on green and sustainable remediation.

Evelyn received a Master of Science degree in Geology from Iowa State University in 2018 and a Bachelor of Arts degree in Geological Science from SUNY Geneseo in 2015. She is a New York State certified Geologist-in-Training.

Reservations are required by Monday

September 18, 2023

Whether attending the dinner or only the in-person presentation

Register on-line at www.hmpga.net

Questions? Call or email Jonathan Dippert at (518) 786-7563 • j.dippert@ctmale.com

Cost: \$10.00 for student members*

\$30.00 for dormant geologists

\$40.00 for members

\$50.00 for non-members

In-person program only: Free

+PDH certificate available for:

\$10.00 (member w/ dinner) • \$15.00 (member for program only)

• \$20 (non-member w/ dinner) • \$35 (non-member)

* Student dinner sponsorship available for qualifying students - contact Jonathan Dippert • j.dippert@ctmale.com

Location:	Century House	Time:	Social Hour	5:00pm
	997 New Loudon Road		Dinner	6:00pm
	Latham, NY 12110		Program	7:00pm

Sponsorship is available for this meeting! Dinner sponsors receive free dinner, a display table set up for the social hour and a 5-minute presentation to the dinner audience, prior to the presentation. Please contact Jonathan Dippert at j.dippert@ctmale.com for more information.
